Re: Section 34, T15N, R6E. Southeast corner.

Hi Greg:

There seems to be two monuments for this corner. One is a harrison which fits the tie sheet and the other is a 3/4" rod about 8' north of the harrison. The harrison fits the tie sheet but is about 8' south of the centerline of Gale Ave. which does not fit the tie sheet. Zietlows CSM No. (unrecorded) of Dec. 11'75 may be a clue. Kiedrowski SS of April '80 has dimensions that go the the 3/4" rod and not the harrison. We have two surveys that use the harrison. Also SS of Section 2 also uses the harrison.

ALSO A PROBLEM WITH W $\frac{1}{4}$ corner of Sec. 34:

At this one I needed the corner for surveying the SE $\frac{1}{4}$ -NE $\frac{1}{4}$. Since it is such a jungle since being cut over, I went to the NW and SW corners to check out the SS of April '80 and your tie sheet of 4/2/80 which put it at $\frac{1}{2}$ the distance between the NW and SW corners. I found the SS summary distance of 5291.30' to be 5248.00'. I then double checked the distance and got the same thing (5248.00'). I used this in my survey because no matter where the W $\frac{1}{4}$ corner is it will not be at 2645.65' from the NW and SW corners.

Call if you have any questions. Thanks.

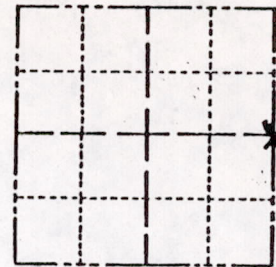

Ken Carlson m1534150600002

Government Land Corner Certificate

ADAMS County
 TYPE OF MONUMENT: Harrison

LOCATION
(Indicated by 'X')

BASIS FOR MONUMENT LOCATION

Show info such as: History of corner, with reference to Vol. and pg., dates, surveyor; exact description of monument replaced; if location computed, by taped or EDM traverse; landowner remarks, etc. (Use reverse side if necessary)

Set corner equidistant and on line between adjacent section corners. No evidence of any previous monumentation was found. No record of any monumentation subsequent to the original was found.
