Parker Lake, Adams County

In making a survey for Mr. Ronald Collins I find survey markers along easterly lines and southeasterly lines of property owners along the shoreline of Parker Lake that appear to be incorrect.

I have contacted the surveyor's, Mid-State Associates of Baraboo and R.K. Saylor of Winneconne in regard to their work. I feel some adjustments must be made and wish to work with them in establishing a proper common property line between Mr. Collins and the various owners. Inconsistencies also appear along the Lake Front line which require ~~may require~~ some revisions.

This letter is for information only, to inform you that a problem exists.

Sincerely,

Herman Holzmillier
