RE: NE and E $\frac{1}{4}$ corners of Section 7, T16N, R6E.

Gentlemen:

After reviewing all the records and viewing the subject corners in the field yesterday, it appears to me that the corners as set by Mr. Rhinehart most nearly match the old records. Those records include old surveys by Zenus Wise and M.C. Smith in addition to the original survey notes.

Evidence of an old fence going East from the E $\frac{1}{4}$ corner and what looks like evidence of an original BT stump at the NE corner are other reasons for accepting Mr. Rhinehart's location.

We could find no record of any old surveys in Section 7 which would justify the old fence that goes West from the quarter corner as Mr. Carroll has it marked.

As we discussed earlier on the phone, Mr. Rhinehart will submit a tie sheet for the NE corner and Mr. Carroll will submit a tie sheet for the E $\frac{1}{4}$ corner and the revised N $\frac{1}{4}$ corner of said Section 7.

Sincerely,

Anthony B. Kiedrowski
Adams County Surveyor
