Baraboo, Wisconsin 53913

Subject: ROCHE-A-CRI
File! SE $\frac{1}{4}$ S 34 T18N R5E
SW $\frac{1}{4}$ S 35
Town of Strong's Prairie
Adams County
Date Rec'd.: August 15, 1973
Rec'd. From: Donald L. Mulock

Dear Mr. Mulock:

We have examined the original drawing of the final plat named above. The Division of Health, Department of Health and Social Services certified on a copy of the plat received September 6, that they do not object to this plat as submitted, and the Director does not object to this plat. The plat has therefore been certified to that effect, dated today on the original drawing.

AFTER ALL CONDITIONS OF THE CERTIFICATION HAVE BEEN MET:

The approval of the approving authority may be given and inscribed on the plat, provided that the original of this plat, as submitted to the local governing body for approval and inscription of approvals, has not been changed in any details checked by those agencies having the authority to object to the plat. Any such changes, which may be found by comparison of the original with the copy of this plat which has been furnished the primary approving authority, will require submission of the plat to the Director for recertification before the plat is eligible for approval.

This plat has been certified as complying with the technical requirements of ss. 236.15, 236.16, 236.20 and 236.21 (1) and (2), Wis. Stats., and, if applicable, Hy 33 and H 65 of the Wis. Admin. Code. It does not certify that the plat complies with applicable master plans, official map ordinances or subdivision control ordinances. Local governmental units will perform this latter function in connection with their review of the plat.

The county surveyor, or Register of Deeds if there is no county surveyor, will be provided an 11" x 15" mylar reproducible of this plat as certified in this office. When corrected to satisfy the conditions of this and all other certifications of no objection and approvals, the mylar will be useful for supplying copies of the subject plat.

The following changes or corrections must be made to satisfy the conditional certification:

- 236.20 (2) (j) The block angle of 90°07'31" must be shown at the northeast corner of outlot 3.

MIS 34180500002

Mr. Donald L. Mulock
ROCHE-A-CRI
September 7, 1973

236.21 (1) A revision date, shown as follows, must be placed under the Surveyor's
Certificate when the plat has been corrected:
"Revised this ___ day of _____, 19__."

Sincerely,

George A. James *By ML*

George A. James, Acting Director
Bureau of Local and Regional Planning
