

Town of Richfield

Route 2, Coloma, WI 54930

~~April 20, 1989~~

The Richfield Town Board at its monthly meeting March 7, 1989 took action to clarify the status of Cree Avenue which the township has not maintained for at least 30 years.

The ownership of the right-of-way, however, has remained with the Richfield Township. Whereas after research of the township records, we find that no recorded action has been taken regarding Cree Avenue, which is approximately 3700 feet more or less in length.

Let it be known that the Town Board of Richfield's intention is to continue the policy of public ownership thereby retaining said Cree Ave. as a public highway, allowing access by adjacent landowners and the general public.

Let it further be known that the Town of Richfield shall continue its policy of non-maintenance of said Cree Ave.

If you wish to have Cree Ave. maintained you can contact Preston Township privately.

Furthermore let it be known that of the "high tax's" you pay for owning land none of that money goes for road maintenance.

Sincerely,

Marliss Heinrich
Richfield Town Clerk
