Ran EDM/transit traverse between Southwest and Northwest corners of Section 11 to determine search area for investigation.

Excavation with backhoe yielded no evidence of the original corner or any monumentation (Identified Post) specified by M. C. Smith in Volume 2, Page 18 of Adams County Survey Records (August 28, 1915). Could find no conclusive evidence of bearing trees.

Relocated corner on line between Southwest corner of Section 11 and SW corner of SW-NW, as relocated from Smith survey, and at distance such that Smith Forty corner is Half way between NW and W¹/₄ corners.
